

## MATH-1150 (DUPRÉ) SYLLABUS FALL 2011

**LECTURE: MWF 1:00-1:50 PM**

**LAB: NONE**

### **INSTRUCTOR**

**Maurice J. Dupre**

**Office:** Gibson Hall 309A

**Office Hours:** 9AM -11AM and by appointment

**Email:** mjdupre@tulane.edu

### **COURSE DESCRIPTION**

Functions and their graphs, limits and continuity, derivatives and applications of derivatives.

### **PREREQUISITES**

Highschool algebra and geometry.

### **TEXTBOOK**

Larson and Edwards, CALCULUS 1 with Precalculus  
(Brooks/Cole Cengage Learning), 2012.

We will cover the Preliminary chapter and the first six chapters in the textbook.

### **LECTURES**

Attendance is mandatory. Classroom lectures **WILL cover material BEYOND the material in the textbook** and students are responsible (both on Tests and Quizzes) for what is covered in the classroom as well as in the textbook.

### **GRADING AND COURSEWORK**

Your final course grade will be determined by **Quiz** grades, **Test** grades, and the **Final Exam** grade.

The Final Exam counts 30 percent of your final course grade. The major Tests count 40 percent of your final grade. The Quizzes (which may be given by surprise) and minor tests count 10 percent of your final grade. The Homework counts 20 percent of your grade.

**To receive proper credit** for any paper you hand in, it must have in the UPPER RIGHT CORNER OF EACH SHEET: your Last Name printed clearly ALL IN CAPITAL LETTERS, underneath must be your First Name printed clearly ALL IN CAPITAL LETTERS, underneath must be your CORRECT SECTION NUMBER. **Any failure to follow this direction may result in your receiving a failing grade.**

**There are NO MAKE-UP Quizzes or Tests.** If you have an excused absence from a major test, your final grade will be determined by your remaining grades using the final exam grade in place of that test grade.

**WEBSITE**

You must be able to access the course page on Blackboard as well as my website:

<http://web.me.com/mdupre/DUPRE/HOME.html>

There will be TAKE HOME TESTS that you will have to download and print from my website. You will be notified from Blackboard by email. You should check Blackboard regularly for Course Announcements.

**CALCULATORS**

No calculators are allowed.

**MAJOR TEST AND FINAL EXAM DATES**

Major Tests will be given on Wednesdays to be announced. The Final Exam is 8AM to NOON, TUESDAY, 13 DECEMBER 2011, at a location to be announced. This location will most likely not be our usual lecture meeting room as the Final Exam Time is NOT the time for classes meeting MWF 1PM, but is instead the special time for all Freshman and Sophomore Mathematics courses. Make sure you pay attention for that announcement in the last week of class.
