

PROOF OF FORMULA 3.362.1

$$\int_1^{\infty} \frac{e^{-\mu x}}{\sqrt{x-1}} dx = \sqrt{\frac{\pi}{\mu}} e^{-\mu}$$

Let $t = \sqrt{x-1}$ to obtain

$$\int_1^{\infty} \frac{e^{-\mu x}}{\sqrt{x-1}} dx = 2e^{-\mu} \int_0^{\infty} e^{-\mu t^2} dt.$$

The change of variables $s = \sqrt{\mu}t$ gives the result.
